Executive Dean's letter

Dear Distance student

I would like to welcome you as a student to the North-West University's Faculty of Education and trust that your association with the Faculty will be fruitful! I am acutely aware of the challenges of being a student (part time) whilst having other competing priorities. However, I encourage you to keep the end goal in mind, especially when the pressure of assignments and examinations becomes challenging.

In the words of Theodore Roosevelt:

"Nothing in the world is worth having or worth doing unless it means effort, pain, difficulty... I have never in my life envied a human being who led an easy life. I have envied a great many people who led difficult lives and led them well."

As you may be well aware, NWU has eight faculties situated at three campuses. The Faculty of Education's contact programmes are being offered at the Mafikeng, Potchefstroom and Vaal Triangle campuses and the Faculty's administration of distance programmes are being managed by the Unit for Open Distance Learning (UODL). The UODL makes provision for lecture broadcasts to centres across the country and Namibia. Academic staff from the three campuses present these lectures and you are urged to attend these broadcasts – or download the lectures the following week - as they will further assist you to navigate your studies with greater success.

The programmes to be offered by the Faculty in 2020 are the BEdHons, BEd Foundation Phase, BEd Intermediate Phase and BEd Senior FET phase, PGCE, ACT, ADE, Diploma in Grade R Teaching as well as three programmes that are being phased out, namely the BEdHons (NQF Level 7), ACE and the NPDE (Amnesty June 2020 exam).

This prospectus (information booklet) details all the relevant administrative arrangements relating to your studies in 2020. Please diarise the dates and times regarding Whiteboard contact sessions and the submission of assignments, tests and examinations, as they pertain to you.

Through the PGCE programme, you will be academically equipped for your task as a leader in the teaching profession. You will note that this programme is centred around three objectives, namely:

1. to provide a holistic orientation in Education as a science;
2. to provide you with relevant research training in Education; and
3. to provide you with an introduction to particular area(s) of specialisation within Education.

On attainment of these objectives, you should be equipped to successfully progress to postgraduate study. This implies that your lecturers will make high, but not unreasonable, academic demands of you. Always keep the admission requirements for the next level of study in mind as we would like for you to continue your studies after successful completion of this degree.

Our academic staff members are experts in their respective subject disciplines and they are best equipped to support you as they fully understand the challenges faced by students studying in the distance mode. However, I do kindly request that you also consider the workload of staff members and that you adhere to deadlines throughout the year. Also, please note that the University library and information technology systems are available to all enrolled NWU students.

I congratulate you on your decision to further your studies and thank you for choosing the Faculty of Education at NWU. I trust that your hard work and dedication will lead to success and I look forward to sharing in your graduation.

Executive Dean

WHAT IS OPEN DISTANCE LEARNING (ODL)? / WAT IS OOP-AFSTANDSLEER (OAL)?

Open distance learning refers to a delivery mode focusing on enhanced accessibility to education and training, limiting or eliminating barriers such as time, place and pace of learning. The NWU promotes open distance learning by allowing students to register for the modules of a programme either in January or in June, offering technology-mediated instruction and examination opportunities at various learning support centres nationally and internationally, and providing student support to enhance the student learning experience. Students who study at a distance are still subject to specific admission requirements as determined by the Institutional Admissions Requirements Committee, fixed dates for the commencement of academic programmes, a minimum and maximum duration for the completion of their studies, and specific scheduled assessment opportunities. (Appendix to the General Academic Rules (A-Rules) of the NWU: Glossary of Teaching Learning-related concepts and designations)

Oop afstandsl eer verwys na 'n aflewering smodus wat op beter toeganklikheid tot onderwys en opleiding fokus en struikelblokke soos tyd, plek en tempo van leer beperk of uitskakel. Die NWU bevorder oop afstandsl eer deur studente toe te laat om óf in Januarie óf in Junie vir die modules van 'n program te registreer, nasionaal en internasionaal tegnologie-gesteunde onderrig en eksamen geleenthede by verskillende leerondersteuningsentrums aan te bied, en studente-ondersteuning te verskaf om die studente se leerervaring te verbeter. Studente wat oor 'n afstand studeer, is steeds aan spesifieke toelatingsvereistes soos deur die Institusionele Toelatingsvereisteskomitee bepaal word, vaste datums vir die aanvang van akademiese programme, 'n minimum en maksimum duur vir die voltooiing van hulle studie, en spesifieke geskeduleerde assesseringsgeleenthede onderhewig. (Bylae tot die Algemene Akademiese Reëls van die NWU: Woordelys van Onderrig-Leer-verwante begrippe en benamings).

UNIT FOR OPEN DISTANCE LEARNING (UODL) / EENHEID VIR OOP-AFSTANDSLEER (EOAL)

MATTERS TO TAKE NOTE OF REGARDING ODL STUDIES /SAKE RAKENDE OAL-STUDIES WAARVAN KENNIS GENEEM MOET WORD

Students need to note the following matters, and are referred to the applicable yearbook:

- i. Some qualifications delivered in the distance mode allow students to register twice a year for studies.
- ii. Each programme has a minimum and a maximum study duration for completing the programme.
- iii. Students have a number of assessment opportunities (examinations) during a study period and all modules can be written at each assessment opportunity (first and/or second opportunities) should the student qualify to write examination.
- iv. Students do not have a second examination opportunity directly after the first attempt. If they fail the first attempt (e.g. in June/July), they can write the failed module during the next examination opportunity (e.g. in October/November). A valid participation mark will give the student access to two examination opportunities, where after a student must generate a new participation mark.
- v. Contact classes are mainly presented by means of interactive white boards at the learning support centres in southern Africa, supported by facilitators. Lecturers can also be contacted via email if the students have access to the internet. All modules presented by means of interactive white boards are stored on the internet for students to access at a later stage.
- vi. Students are supported by means of a call centre, social media (Facebook) and contact with lecturers and facilitators.
- vii. Examinations are written at several examination centres throughout southern Africa, but the NWU can request students to write a specific module (e.g. Computer Science) at the campus in Potchefstroom, where the Unit for Open Distance Learning is situated.

Unsatisfactory academic performance / *Onbevredigende akademiese prestasie*

A student whose academic performance is found to be unsatisfactory will receive a formal written warning from the relevant director. If subsequent progress is still not satisfactory, the student may be dealt with in terms of A-Rule 1.18 and sub-paragraphs.

Termination of studies of ODL students / *Beëindiging van OAL-studente se studies*

The minimum and maximum duration of study for the various qualifications is indicated in the calendar and in the information booklets for these

qualifications. One year before the maximum duration of study is exceeded and a student's studies are finally terminated, such a student will receive a warning letter to inform him/her of the two final examination opportunities to pass all outstanding modules. Should such a student still have modules outstanding after these examination opportunities, the studies of such a student must be terminated in terms of Academic Rule 1.18.

Only in exceptional cases and then on the grounds of irrefutable evidence will the Executive Director: UODL and the Executive Dean of the Faculty of Education consider a request for continuation of studies from a student whose studies have been terminated. Should such an application be successful, the student will be afforded only one examination opportunity to complete all outstanding modules.

A rule 1.8: Linked and concurrent modules (These modules are identified clearly in the faculty yearbook applicable to your studies.

1.8.1 Linked modules, being modules identified as assumed learning for a subsequent module or modules, must be specified in faculty rules.

1.8.2 Linked modules must have been passed before a student may register for a successive module.

1.8.3 The passing of modules may be specified in faculty rules as a concurrent requirement for the recognition of the passing of another module, in which case such modules may be taken in a semester prior to, or in the same semester as the module for which it is a concurrent requirement.

Faculty comment:

ODL students must, before registration, make sure that the modules they would like to register for in a specific year are correct according to the yearbook.

A rule 1.10.1 Annual registration (Refer to A rule 1.4, recognition as a student of the university)

1.10.1.1 Every returning student must register annually in their personal capacity, either by means of a paper-based or an electronic registration process, for the learning components that are prescribed for the specific study year, in accordance with the faculty rules applicable to the qualification, programme and module(s) concerned.

Faculty comment:

Please take note that it is imperative that all the ODL students must register annually.

Should a student be registered for a module, NWU views that student as active in the module, and they will have two examination opportunities to pass the module successfully. Should the student not pass the module after the first two successive examination opportunities, whether or not participation took place towards the participation mark and/or examination, the student will fail the module and will have to reregister and pay for the module again.

Kindly note that NWU will charge a fee to the student's account should a second examination session be utilised.

A rule: 1.10.1.6: Two registration periods for the various levels and modes of study are annually determined in the university calendar, the second of which is reserved exclusively for registration of students in such distance programmes as may be identified annually by the responsible executive dean.

Annual registration for specific programmes

PGCE:

Students (contact and distance) register for the PGCE only during the first annual registration period. The modules offered are synchronised for the modes of delivery.

A rule 1.10.4.1: Subject to the applicable faculty rules and the applicable provisions regarding payable fees, a student may apply in the prescribed manner and within the period indicated for that purpose on the annual university calendar, **to amend, cancel or discontinue registration.**

A rule 1.10.4.2: Registration may be cancelled for a programme or a module, and entails that a student withdraws from the programme or module before formal tuition begins.

A rule 1.10.4.3: Timeous cancellation of registration is not reflected in a student's academic record and a pro-rata part of the registration fees, as well as the paid tuition fees, may be reimbursed.

Faculty comment:

*The last day for module amendments and cancellation will be **14 February 2020 for the first semester** and **14 August 2020 for the second semester**. In this case only a pro rata payment will be paid back to the student as study material had already been sent to students and there were administrative and postage fees.*

A rule 1.13.7.7: Remarking of examination work at the request of a student is subject to the payment of the applicable fee.

Faculty comment:

*Distance students may apply for a remark of their examination answering scripts provided that the call centrum receives the request within 10 working days after results were released and only if a minimum examination mark of 35% **and** a final module mark of 45% were obtained. The application form as well as the invoice of the required money paid should be submitted to the call centrum.*

NB It can take up to 2 months to receive the re-mark result. Students should thus plan and continue with their studies according to the published mark.

A rule 1.16: Progression requirements: (Very important to note)

A rule 1.16.1: In order to ensure that a sufficient percentage of the credit load of the programme for which the student is registered is completed within the maximum duration allowed for the study –

A rule 1.16.1.1: a contact student must obtain at least 66% of the total credits that is required for the programme up to the historic year level for which the student is registered, and

A rule 1.16.1.2: a distance student must obtain at least 50% of the total credits that is required for the curriculum up to the historic year level for which the student is registered.

A rule 1.16.2: A student who fails to comply with the progression requirements provided for in rule 1.16.1 does not automatically qualify to continue study in the programme concerned.

A rule 1.16.3: After every examination period the executive dean concerned must, in consultation with the faculty management committee or other faculty structure concerned, review the academic records of all students to determine the students' compliance with the progression requirements.

A rule 1.16.4: Should the executive dean concerned decide to terminate a student's registration due to failure to comply with the progression requirements, the student may, within ten days of the date of such decision, submit to the faculty manager a motivated request in the prescribed form to be readmitted to the study.

A rule 1.16.5: The executive dean's decision to grant or refuse a request for readmission submitted in terms of rule 1.16.4 is final.

A rule 1.16.6: The executive dean reports all the decisions taken in terms of this rule to the registrar.

Faculty comment:

It is imperative that students abide within this rule, to ensure that their studies are not terminated.

A motivated request regarding the readmission to studies, must reach the ODL call centre within ten days of the date of decision.

1.2 Provisions for undergraduate qualifications

A rule 2.5.3: Number of examination opportunities

2.5.3.1 A student registered for an undergraduate module is entitled to use two consecutive opportunities per module to take the examination within the examination time tables set in the annual university calendar.

Faculty comment:

ODL students' second examination opportunity is in the following semester during the scheduled examination period. If a student fails a module the second time, or failed to use the two consecutive examination opportunities he/she needs to reregister and pay the following year for this module and the previous participation mark will no longer be taken into account.

A rule 2.6.2: Qualification with distinction (Undergraduate programmes)

2.6.2.1 In order to be awarded a qualification with distinction a student must achieve a weighted average of at least 75% for all the core modules identified as such in the faculty rules concerned, not taking additional modules taken by the student into account.

2.6.2.3 A part-time student or a student enrolled in a distance programme must complete the programme within the maximum time specified in the faculty rules in order to qualify for the award of the qualification with distinction.

2.6.2.4 The marks obtained in core modules completed at other institutions recognised by the university for the purpose must be taken into account when calculating the weighted average mark referred to in rule 2.6.2.1.

1.3 The bachelor honours degree and the postgraduate diploma

A rule 3.6.2: Qualification with distinction

A rule 3.6.2.1: In order to be awarded a bachelor honours degree or postgraduate diploma with distinction a student must achieve a weighted average of at least 75% for all the core modules identified as such in the faculty rules concerned, not taking additional modules taken by the student into account.

A rule 3.6.2.3: A part-time student or a student enrolled in a distance programme must complete the programme within the maximum time specified in the faculty rules in order to qualify for the award of the qualification with distinction.

A rule 3.6.2.4: The marks obtained in core modules completed at other institutions recognised by the university for the purpose must be taken into account when calculating the weighted average mark referred to in rule 3.6.2.1.

2 General Academic Rules for ODL programmes

(Aligned to the NWU's Academic Rules).

2.1 Admission requirements for programme(s)

The admission requirements for all formal academic qualifications offered by the University are indicated in the Admission Policy, as approved by Senate and Council http://www.nwu.ac.za/content/policy_rules.

2.2 ODL examination opportunities

ODL examination opportunities are scheduled during June/July and Oct/Nov of every year. Students may write any module during either June/July or October/November of each year. Examination opportunities and information are communicated to students via the relevant prospectus (programme information booklet) and time tables, the NWU and OLG websites, MOODLE, and examination letters. The number of examination opportunities per module is determined according to the maximum study period of the qualification for which a student is registered.

NWU web address: <http://www.nwu.ac.za>

2.3 Admission to examinations

According to Academic Rules, any student who has obtained the required proof of participation and/or participation mark as prescribed, will be admitted to the examination in the module concerned.

A participation mark will allow a student a second consecutive examination opportunity, should he/she fail the first attempt.

2.4 Participation mark

A "participation mark" is awarded to a student in a module within a prescribed period by means of formative assessment for the completion of teaching-learning activities that are required as part of the study within the module.

A participation mark for modules in ODL-programmes is obtained by successfully completing assignments and obtaining a participation mark for the prescribed assignment(s), as stipulated within every module-specific tutorial letter. The PGCE student must achieve a 50% participation mark to be admitted to the examination.

An assignment mark may contribute towards the participation mark of a specific module for only two examination opportunities. Thereafter, a new assignment must be submitted for a new participation mark, in order to gain admission to write the examination in that module.

2.5 Module mark

A module mark is calculated according to a formula that is determined for each module in terms of faculty rules from time to time. The formula is based on the participation mark and the examination mark awarded to a student in a module; provided that the weight of the participation mark in the above mentioned formula may not be less than 30% or more than 70%.

In calculating the module mark for all modules, (except when stated otherwise in a particular module) the participation mark for modules in the PGCE carries a weight of 50% and the examination mark a weight of 50%.

NB! Owing to the fact that assignments may get lost in the post, students should make and keep a copy of their assignments before posting them. However, students should post the original assignment to prevent suspicion of plagiarism.

2.6 Unsatisfactory academic performance

A student whose academic performance is found to be unsatisfactory will receive a formal written warning from the Deputy Dean: FES or an administrator authorised by him. Thereafter, if progress is still unsatisfactory, the student will be dealt with in terms of the General Academic Rules.

2.7 Termination of studies of ODL students

The minimum and maximum duration of study for the various qualifications is indicated in the Calendar and in the programme prospectus (information booklet) for the qualification concerned. One year before the maximum duration of study is exceeded and a student's studies are finally terminated, such a student will receive a warning letter from the Deputy Dean: FE or an administrator authorised by him to inform him/her of the two final examination opportunities when all outstanding modules must be passed. Should such a student still have outstanding modules after these examination opportunities, his/her studies must be terminated in terms of the Academic Rules.

Only in exceptional cases, and on the grounds of irrefutable evidence, the Deputy Dean: FE, or the school director, or the programme leader authorised by the Deputy Dean, will consider a request for continuation of studies from a student whose studies had been terminated. Should such an application be successful, the student will be afforded only one examination opportunity to complete all outstanding modules.

2.8 Warning against plagiarism

Assignments are individual tasks and not group activities (unless explicitly indicated as such). For further details, see:

http://www.nwu.ac.za/sites/www.nwu.ac.za/files/files/i-governance-management/policy/2P-2.4.3.2_plagiarism%20and%20dishonesty_e.pdf

3 Academic matters

3.1 Programme information: PGCE

(Refer to the NWU Calendar of the Programme at <http://www.nwu.ac.za/e-yearbook-index>).

3.1.1 Nature and general aims

The PGCE programme in the Faculty of Education of the North-West University prepares student teachers to become competent professional educators in a variety of educational and training careers. The overarching goal of the educational experience in this particular programme is to provide all our students with the knowledge, skills and attitudes to live and work in a globally interdependent world, and with support services to help them succeed. This requires a conscious, purposeful, sustained and social-constructivist focus on the actual learning of students that may take place because of their interactions in specific study-related groups. For this reason, this academic programme also seeks to foster inclusivity, and to develop a sense of personal and social responsibility and ethical conduct in and among students by encouraging involvement in environmental, community and public service affairs. It endeavours to offer and cultivate a teaching-learning environment that is hospitable to diverse socio-conventional and linguistic interests and activities.

The PGCE focuses on the initial training of teachers for teaching in the Senior and Further Education and Training (FET) Phases, thus Grades 7 to 12. It serves as a professional capping qualification for candidates who have completed a relevant B-degree or qualification with at least 360-credits and wish to enter the teaching profession. Students, who have obtained this qualification with its focused vision on classroom practice, will be able to fulfil all the contextual roles and competencies of an effective educator.

The programme equips and empowers prospective educators in the Senior and FET Phases to develop and

- demonstrate a deep knowledge and understanding of education theory and practice;
- integrate education theory and practice as applied competence;
- demonstrate, as well as implement subject-specific pedagogical competencies that embrace teaching, learning and assessment in practice;
- demonstrate knowledge, skills, attitudes and values, in order to become responsible, independent and contributing scholars of the professional educational community in a diverse and changing national and international context; and to
- demonstrate critical, creative and reflective problem-solving skills within educational and societal contexts.

The qualification consists of a minimum of 140 credits, divided into 15 modules, which include fundamental and generic modules, specialisation methodologies, as well as some additional modules.

3.1.2 Study duration and articulation and phasing in dates

a) Study duration

The minimum duration of study is one year (two examination opportunities), and the maximum duration three years (six examination opportunities).

b) Phasing in dates

The first intake for ODL PGCE occurred from January 2017.

c) Articulation

This specialised qualification will provide the successful student with both horizontal and vertical articulation possibilities. To articulate vertically, a student can seek access to the BEdHons (NQF 8) or a Postgraduate Diploma in Education (NQF 8), specializing further in a related subject, phase or practice contained in this initial qualification. The NQF Level 8 qualifications ensure access to further postgraduate studies (Master's & Doctoral Degrees) in related study areas. A horizontal articulation is also possible to the AdvDip (Education) qualification at NQF level 7, for students who wish to develop a new role in support teaching and learning, for example, school librarianship, education for the deaf, etc.

3.1.3 Admission requirements

An undergraduate university degree with **two** recognised **school subjects**, or a recognised qualification, with a minimum of 360 credits at NQF level 6 that includes at least two recognised **school** subjects up to the required level.

Students should also be able to enrol for two methodology subjects, in order to obtain the qualification.

The curriculum for the qualification is structured as follows:

A recognised school subject at level 3 +

a recognised school subject at level 2 (depending on subject-specific requirements).

In the event of a choice between methodologies for academic subjects already obtained in a prior qualification, a student must select from such subjects the two at the highest level. In the case of languages, the relevant language must be at year level 3.

Note: A recognised school subject will be included in the Department of Basic Education's official list of school subjects and completed in an already obtained qualification.

Examples of recognised school subjects completed in an already obtained qualification:

Languages (Afrikaans, English or Setswana), Geography, History, Mathematics, Sociology and Psychology, Human Movement Sciences, Life Sciences (Physiology, Botany, Zoology), Physical Sciences (Physics, Chemistry), Business Management, Accounting, Economics, Tourism, Information Technology, Music and Art.

3.1.4 Faculty-specific requirements

3.1.4.1 Faculty specific exceptions:

a) After the completion of the PGCE a student has to have one of the following combinations of subject specialisations:

- **Two FET subjects and two SP subjects**

(Example: Life Sciences (FET), Mathematics (FET), Natural Sciences (SP) and Mathematics (SP).)

- **Two FET subjects and one SP subject with Curriculum-based Assessment Adaptions or Managing barriers to learning**

(Example: Economics (FET), Business Studies (FET), Economic and Management Sciences (SP) and Managing barriers to learning.)

b) Basic computer literacy.

c) Access to internet.

3.1.4.2 Program specific rules for the curriculum

- A student who wants to take **Life Sciences** (LIFD 512) as a methodology need to present one of the following subjects Botany, Zoology or Physiology on level three and the other two on level one.

7 Counselling

- a) Studying via ODL certainly poses a challenge to many students, since such students are usually employed and older, have families and other obligations, and often experience isolation with regard to their higher education.
- b) To assist you with your academic progress, as well as the accompanying logistics and administration, we have provided the Call Centre and various websites where you can get support and assistance.
- c) However, we realise that there may be financial, psychological or other constraints that could dissuade you from focusing on your studies. For this reason, we also have a 24-hour tele-counselling service available to you. We believe that students without burdens will have a positive attitude and be content, and focus on their studies. These services will be available 24/7 (therefore including weekends), and free of charge.
- d) This service is sub-contracted to the therapeutic service, called **INGRYP**, which has the infrastructure to offer counselling services to you. Different types of counselling services are available:
 - i. Financial counselling
 - ii. Legal advice
 - iii. Interpersonal interactions

- iv. Trauma counselling
 - v. Personal trauma
 - vi. HIV/Aids counselling.
- e) Counselling services will be provided by professionals, including
- i. psychologists;
 - ii. social workers;
 - iii. legal advisers; and
 - iv. Financial advisers.
- f) **Note: these services are available only to our students. Have your student and ID number ready when making contact.**
- g) Should the need arise for counselling, different ways of requesting advice are available, depending on the type of counselling required.
- h) **Should you need an immediate response, kindly dial the following telephone number:**

Landline: +27 18 299 1777.

- i) **For NON-EMERGENCY purposes only (i.e. financial and legal advice):**

SMS: SA: 32341

International: +27 8400 32341

Email: help@lifeassist.co.za
