

Dear student

NEW QUALIFICATION FRAMEWORK ACT 67 of 2008

POLICY ON THE MINIMUM REQUIREMENTS FOR TEACHER EDUCATION QUALIFICATIONS

Government Gazette No 34467 dated 15 July 2011

The *Minimum Requirements for Teacher Education Qualifications* replaces the Norms and Standards for Educators (NSE), published in February 2000.

The above policy accommodates articulation routes for teachers holding historic qualifications into the new set of HEQF-aligned qualifications. Programmes under the Norms and Standards for Educators will be phased out and teachers need to obtain these qualifications by the dates indicated below to ensure that they will be recognised.

NPDE: Registration for the National Professional Diploma in Education will close in July 2014 and students must complete by the end of 2018.

Teachers with NPDE may register for the Advanced Certificate in Education (ACE) until December 2015; thereafter they will have to register for the new Advanced Certificate in Teaching (ACT), followed by the new Advanced Diploma in Education (ADE).

ACE: Registration for the Advanced Certificate in Education will close in December 2015 and students must **complete** by the end of 2018. 2013 is the last year for enrolment for students who wish to articulate into the BEdHons at NQF level 7, from the ACE, provided that they **complete** the ACE before October 2015.

From the end of 2015 onwards, students with an ACE must articulate into the ADE followed by the Post Graduate Diploma in Education (PGDE).

BEdHons – NQF Level 7: Teachers who have completed the required teacher's diploma programmes may enrol for this BEdHons until October 2015 and must complete it by the end of 2018.

The new aligned BEdHons is on NQF Level 8 and prospective students must be in possession of a recognised degree for entry into this programme.

PGCE: Registration for the PGCE will close in July 2014 and must be completed by July 2018.

GROUP WORK in assignments

The NWU promotes group work amongst students as it assists students in mastering certain aspects of their studies. Group work is therefore acceptable, but with the following requirements in order to prevent accusations of plagiarism.

- Do not copy the assignments of other students – it is not worth the risk if lecturers suspect plagiarism.
- Individualise your assignment when you have worked in a group.
- Supply the names of the members of your group in your assignment.
- Do not copy the material from any author without giving due recognition to the author in your text and in your Bibliography.

5. COMPUTER LITERACY TRAINING [CLFE 115]

IMPORTANT INFORMATION

WHAT IS OPEN DISTANCE LEARNING (ODL)

ODL refers to any off-campus academic programme(s) offered by the NWU, independently or in terms of an agreement of co-operation with another public or private provider of higher education. Students may enrol at any time of the year and minimum and maximum study periods are applicable. ODL-programmes imply independent study by students in combination with structured contact sessions and student support consisting of appropriate study material and access to lecturing staff. The Unit for Open Distance Learning (UODL) of the NWU is responsible for in-service training of under- or unqualified teachers, as well as further training of already qualified teachers, by means of ODL-programmes. The ODL instructional model makes provision for a summer and winter school, interactive white board sessions presented at tuition centres countrywide and facilitation sessions for selected modules.

TERMINATION OF STUDIES OF ODL-STUDENTS

- ❖ Minimum and maximum duration of study periods for NPDE are indicated in this information booklet.
- ❖ Six months before maximum duration of study is exceeded and a student's studies are finally terminated, such a student will receive a warning letter from the Director of the Unit for Open Distance Learning (UODL) to inform him/her of one final and once off examination opportunity to successfully complete all outstanding modules.
- ❖ If there are still modules outstanding after such an exam opportunity, the studies of such a student must be terminated in terms of General Rule A.2.4.8.

Only in exceptional cases and then on the grounds of irrefutable evidence will the Director of the Unit for Open Distance Learning consider a request for continuation of studies from a student whose studies have been terminated. Should such an application be successful, the student will be afforded only one examination opportunity to complete all outstanding modules.

NATURE AND GENERAL AIMS OF THE NPDE

The NPDE programme allows under- and unqualified practising teachers, as well as FET-College educators to *upgrade* their qualifications. Successful completion of the NPDE enables the educator to qualify as a professional in his/her field. It addresses current needs and issues through practice-based content and activities.

SPECIFIC OBJECTS

The programme is practice-based and has a strong classroom focus. Upon completion of this programme the teacher will be:

- ❖ Equipped with the knowledge, skills and values required to effectively fulfil the seven roles of the educator as stipulated in the National Curriculum Statement.
- ❖ Allowed to progress to REQV 13 as a fully qualified professional teacher in the Foundation, Intermediate or FET phases.
- ❖ Empowered with the fundamental, practical and reflexive competencies required for further study at NQF level 6. (REQV 14)

The Phases presented:

- ❖ Foundation Phase (Gr. 0 – 3);
- ❖ Intermediate and Senior Phase (Gr. 4 – 9); and
- ❖ Further Education and Training Phase (FET) (Gr. 10 – 12).

ADMISSION REQUIREMENTS FOR ALL NPDE QUALIFICATIONS

A student may only register for the NPDE program if such a student:

- ❖ has at least five years teaching experience,
- ❖ is on either REQV level 10, 11 or 12,
- ❖ is a practising teacher during the study period.

LANGUAGE

A student may write examinations and submit assignments in either Afrikaans or English. Contact classes and lessons will be conducted in English.
